

# POTS Forum General Meeting

August 22, 2022 10:00 AM – 11:30 AM (Pacific Time)

Invitees:

- POTS Forum Steering Committee
- POTS Forum General Audience

## Agenda Narrative

The Pacific Northwest National Lab's study on electrical system benefits from offshore wind in Southern Oregon and Northern California is underway and is reaching important milestones for creating and refining the transmission concepts to be studied. Travis Douville from PNNL will present work to date on offshore wind generation analysis and transmission scenario construction, and will solicit guidance from attendees on next steps.
